# Sing-Out Dubuque

## In Concert

Three years ago, people told us to come back in a month if we were still around. From those first months of our existence about 300 people have spent high school and college years contributing to the group. The once young members are now the old members. You are seeing before you tonight, a creation of ideas we hope will convey to you our thoughts of today and our hopes of tomorrow.

"Mankind is a radiant light -- Everyone, given the opportunity to fulfill their potential, can contribute to that light."
